

Preliminary Amendment

National Stage Entry of PCT/AU2003/001250

Attorney Docket No.: Q86490

AMENDMENTS TO THE SPECIFICATION

Please delete the present Abstract of the Disclosure.

Please add the following new Abstract of the Disclosure:

Processes for the production of a stabilized vaccine composition of labile immunogens, wherein a fluid comprising one or more immunogens is sprayed into a reactor containing fluidised particles of a pharmaceutically acceptable water soluble material at a temperature of about 25°C to about 50°C, such that the immunogen coats and is dried onto the particles under the fluidising conditions, and thereafter collecting from said reactor dried immunogen containing particles having a moisture content between 0.1% w/w to about 10% w/w are described. Also described are stabilised vaccine compositions of labile immunogens.
